LITIGATION SERVICES

The Litigation Services Department is a valuable source of financial expertise and support for attorneys, their clients and the courts on a wide range of legal matters. We are advocates for the financial truth in a non-financial arena. Our Litigation Services Department takes a pro-active approach to resolving the financial aspects of personal or business-related disputes in advance of litigation. Our seasoned professionals use creative thinking and work with mediators and arbitrators in Alternative Dispute Resolution (ADR) to reach an acceptable financial solution outside the courtroom.

In civil and criminal cases, we prepare trial exhibits, provide work product and present our expert opinion in a clear and compelling manner to help the court reach a fair and equitable determination of the matter at hand. We provide investigative accounting and discovery, consultations, deposition assistance, reports and trial exhibits and expert testimony for deposition and trial.

Our Litigation Services Department focuses on services in three primary areas:

Business Law

We assist business owners and professionals and their respective attorneys to resolve financial disagreements and show economic damages as indicated. Through our assistance in resolving these issues before trial or preparing for trial through the investigation and discovery of financial matters, we help our clients maintain focus on their core business issues and the successful future of their operations.

Forensic Accounting

In many types of civil and criminal legal matters, it may be difficult to determine the location and value of an individual's or a company's assets.

Family/Marital Law

In family-related matters, an accurate and objective valuation of individual assets, liabilities, income, losses and net worth can provide a solid foundation for the legal arrangements that shape individual lives for years to come. We offer experienced, realistic and objective presentations of financial position.
